>> About safety.

The proof is in the numbers.

The smart fortwo received the highest ratings from the Insurance Institute for Highway Safety:

- > "Good" for frontal offset test and side impact test (highest ranking possible)*
- > "Good" for roof strength test (highest ranking possible)**

The smart fortwo meets or exceeds the stringent federal safety standards set forth by the National Highway Traffic Safety Administration:†

- > 5 out of 5 stars on side impact rating
- > 4 out of 5 stars on frontal crash driver side rating

Crash Protection Systems (Passive Safety)

- > tridion safety cell – a steel safety cage reinforced with high-strength steel
- > Driver and passenger front airbags and two side airbags for head and neck protection
- > Collapsible steering column for additional space and energy absorption in a front-end collision
- > Safety seats and belts, including belt tensioners that reduce the slack in a matter of milliseconds and belt-force limiters that carefully release the necessary length of belt to avoid exerting too much pressure on the chest

Crash Avoidance Systems (Active Safety)

- > electronic stability program®
- > Brake Assist
- > Anti-Lock Braking System
- > Acceleration Skid Control
- > Cornering Brake Control

Real Owners. Real Stories. Real Safety.

"Few people can say that their car saved their life but I CAN. I was on my way to work when my smart fortwo smashed head-on into the middle of a "parked" truck that was facing west bound across two lanes. The police officer said, "I've never seen a small car like yours hold up so well. Most people don't walk away from a head-on collision like yours even in a regular sized car." Luckily, I was able to buy another smart fortwo in the same color as the one I lost.

– Karen Spahn, Scottsdale, AZ

>> About smart.

> Who is smart?

smart is a member of Mercedes-Benz Cars. Over a million smart vehicles have been sold in over 40 countries throughout the world.

> What smart fortwo models are available in the USA?

pure coupe at \$11,990*
passion coupe at \$13,990*
passion cabriolet at \$16,990*
BRABUS coupe at \$17,990*
BRABUS cabriolet at \$20,990*

> What type of engine and transmission does the smart fortwo have?

The smart fortwo comes equipped with a 70 hp, 3-cylinder, one-liter, gasoline-powered engine and the unique smartshift® Transmission. This five-speed, self-shifting manual transmission allows for clutch-free shifting for ultimate convenience. You can allow the transmission to select its own gears for maximum efficiency or switch to manual mode for a more spirited driving experience.

> What is the gas mileage?

The vehicle has a 2010 EPA estimated MPG rating of 33 city/41 highway, making it the most fuel-efficient, non-hybrid, gasoline-powered vehicle in the United States today.**

> How fast does the smart fortwo go?

The smart has a top speed of 90 mph (electronically limited).

> How big is the smart fortwo?

The vehicle is 8.8 feet long, 5.1 feet wide and 5.1 feet tall. The roominess is a "wow" factor with as much head and leg room as a luxury car and plenty of room for groceries, luggage or golf clubs!

> How can I purchase a smart fortwo?

Visit your local smart center, take a test drive and select a smart fortwo of your choice from dealer inventory. For \$99, you may also reserve your smart fortwo online at smartUSA.com through our customer build-to-order program. The production process takes approximately 90 days.

> How "green" is smart?

Protecting the environment begins at "smartville" in Hambach France, one of the most environmentally-friendly manufacturing facilities in the world. The result is a vehicle that is 95% recyclable and certified as an Ultra Low Emissions Vehicle by the California Air Resource Board. It's also recognized as a SmartWay vehicle by the Environmental Protection Agency for low green house and air pollutant scores.
